

INSTRUCTIONS

For mailbox installation a set of screws and wall plugs is supplied.

Place mailbox against wall, door or any other desired location and mark screw locations once having determined desired position of box.

Drill holes with appropriate size drill bit and insert wall plugs. Place screws into wall plugs but do not tighten until box has been hung in position. Once satisfied with box position, proceed to tighten screws.

CAUTION:

When cleaning box avoid using harsh chemicals or abrasive cleaning materials.

IMPORTANT

- 1) Wash with clear water to remove dust and dirt.
- 2) Wipe dry with soft cloth.
- 3) Apply mild car wax.

NOTE:

Repeat above procedure every two or three weeks.
